\_\_\_\_\_

\_\_\_\_\_

\* For individualized appliances, please send detailed instructions—one time only is usually necessary—for us to keep on file as your Master Rx. If we have no Master Rx for you, and your preferences are not indicated on this Rx, then Summit will fabricate your appliance using our standard wire and clasp sizes, color, and basic design protocol.

Please be assured that all of our laboratory work is fabricated in our Munroe Falls, Ohio, office. We do not outsource anything overseas. We use only FDA-approved materials, including acrylic monomer and polymer, plastics, wire, and expansion screws. Prior to shipping, we process all lab work with an EPA-registered disinfectant that meets OSHA, ADA, and CDC guidelines.
